

As parents, we naturally want the best for our children, but what if the best is not good enough? Even parents have seasons of uncertainty, seasons when we question the decisions we make for our children. We are all familiar with these seasons, even so in a world where media competences are essential and numerous ways to equipping our children with this tool are constantly presented to us.

Our event "Media Consumption for Children" will focus on the following points:

When should a child get a smart phone? How can we protect our children from Cyber bullying? What are the dangers of media consumption for children?

Mr Hollemann, Medianpädagoge will be at your disposal for any questions or queries.

The MigrantenElternNetzwerk Hildesheim in cooperation with the Stadtteileltern cordially invites you to this event.

Tuesday, 27.08.2019 at 15.00 pm
Aula der Didrik-Pining Schule, Zeppelinstraße 32, 31135 Hildesheim

Benefits of attending:

- Building confidence in dealing with children's access to social media and technology
- Translators will be at your disposal

The Entrance is free and a child-care service will be available. Registrations at 05121 301 4274.
